

## Metis Employment & Training

Manitoba Metis Federation's Metis Employment & Training operates through funds provided under the Aboriginal Skills and Employment Training Strategy (ASETS) Agreement. This is an agreement between Canada and the MMF that provides funding for labour market driven employment and skills training programs. Partnerships with industry employers are a major focus of the ASETS Agreement, and the MMF has always seen partnerships and strategic planning as central to ensuring the best possible outcome for its Metis citizens. Through a variety of successful partnerships, our clients have a history of answering employers' needs for qualified staff, while securing long-term, quality employment and careers for themselves.

Through the ASETS Agreement we are able to design employment and skills training programs & services that best serve the needs of our Metis community and our Metis citizens.

Metis Employment & Training provides a wide range of services to clients seeking employment and training assistance. Our friendly staff team is available to provide individual employment needs assessments and to assist clients in the development of career goals and employment action plans.

### Services Available
